

Maths in Year 4

Counting and Times Tables

Your child should be able to count in 25s, 50s, 100s and 1000s and should be able to recall times tables up to 12 x 12.

Addition and Subtraction

In year 4, your child should be able to solve two-step addition and subtraction problems.

: 563 - 241, no adjustment or decomposition needed.

Expanded method	leading to
500 + 60 + 3	563
- 200 + 40 + 1	- 241
300 + 20 + 2	322

I have £2.65 and my best friend has £1.45. We went to a shop and bought a bag of sweets for £1.99. How much money did we have left between us?

Multiplication and Division

Children in year 4 should be able to use their multiplication and division facts for the multiplication tables up to 12x12.

Moving on to...

2nd

Round numbers to the nearest 10, 100 and 1000.

Count backwards through zero to include negative numbers.

Type of car	Make	Frequency
Sup	BP 10	12
Sup	BP 5	7
Midsize	BP 1	6
Budget	BP	8
Minivan	1	2

Solves comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.

Fractions

Count in hundredths and recognise that hundredths arise when dividing an object by 100 and dividing tenths by 10.

Rounds decimals with one decimal place to the nearest whole number.

Recognise equivalent fractions

Converts between units (e.g. kilometre to metre; hour to minute).

Identifies lines of symmetry in 2D shapes presented in different ways.

Compares and classifies geometric shapes, based on their properties and sizes.

Plots specified points and draws sides to complete a polygon.

Tell the time
